THE PLACE OF THE NOOSPHERE

IN COSMIC EVOLUTION

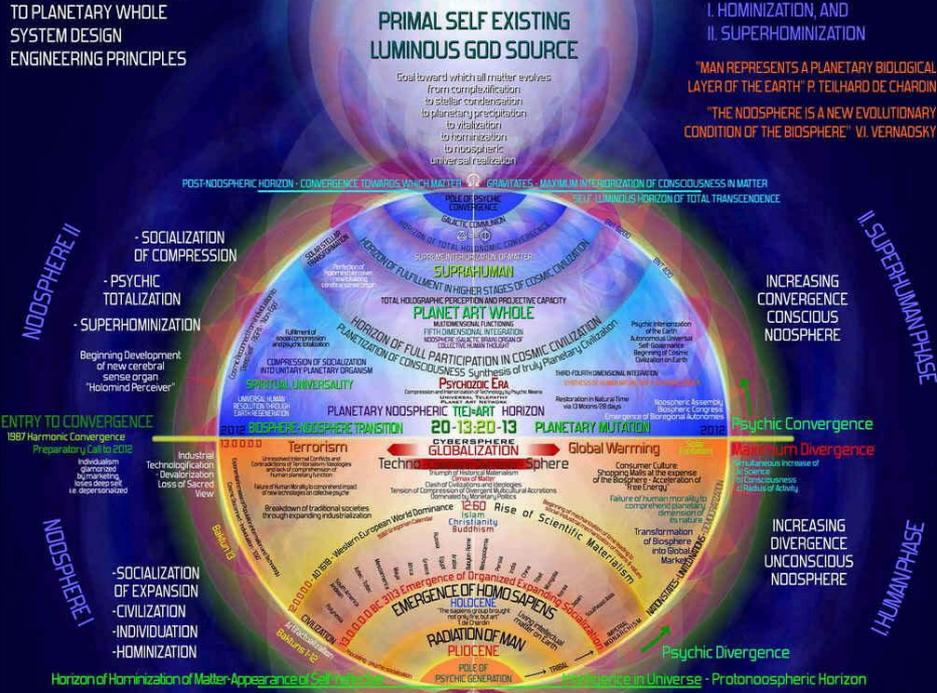

AN ELUCIDATION OF THE HYPOTHESIS OF THE BIOSPHERE-NOOSPHERE TRANSITION WITH SPECIAL REFERENCE TO PLANETARY WHOLE SYSTEM DESIGN ENGINEERING PRINCIPLES

NOOSPHERE - Layer of Mind-

IS THE KEY TERM IN THE TRANSITION FROM THE INVOLUTION OF SPIRIT INTO MATTER (MATERIAL COMPLEXIFICATION) TO THE EVOLUTION OF SPIRIT OUT OF MATTER INTO CONSCIOUSNESS (TRANSFORMATION OF MATTER INTO CONSCIOUSNESS, OR SELF-INTERIORIZATION OF MATTER) IN THIS PROCESS "MAN" IS THE AGENT OF NOOSPHERE AND ACCOMPLISHES THE NOOSPHERIC TERM IN TWO PHASES:

- I. HOMINIZATION, AND
- II. SUPERHOMINIZATION

"MAN REPRESENTS A PLANETARY BIOLOGICAL LAYER OF THE EARTH" P. TEILHARD DE CHARDIN
 "THE NOOSPHERE IS A NEW EVOLUTIONARY CONDITION OF THE BIOSPHERE" VI. VERNADSKY

Primal Self Existing Luminous God Source
 God Source of Divine Intelligence from which emanate continuous impulses concretized as plasmic streams of potential materiality

Cosmic Evolution intelligence is assumed.
 Therefore Universe as evolution of matter tends to irreversible complexification which establishes different horizons.

- Crystallization of matter into autonomous self existing form structures
- Vitalization of matter - Attainment of autotrophic and heterotrophic self-generation - biospheric unity of life and incipient consciousness
- Hominization of matter - Psychic reflex of matter expanding as different streams - Noospheric Divergence - Individuated Consciousness
- Super Hominization of matter - Conscious Manifestation of Willingness - Psychic Compression and totalization - Interiorization of matter - Planetization of Consciousness - Cosmic Civilization

"MAN" = Psychic Reflex of Matter
 A stage in the evolution of matter in which planetary evolution of consciousness totalizes as Noosphere.

- PLANETARY WHOLE SYSTEM DESIGN SCIENCE**
FUNDAMENTAL EVOLUTIONARY PRINCIPLES
- 1- LITHOSPHERE - INCLUDING CRYSTAL MAGMA CORE.
 - 2- HYDROSPHERE - ONE OCEAN - PANTHALASSA including lake-river drainage system
 - 3- ATMOSPHERE - ELECTRODYNAMIC THERMAL CYCLES AND CONVECTION CURRENTS
 - 4- BIOSPHERE - UNITY OF DIVERGENT FORMS OF VITALIZATION
 - 5- NOOSPHERE - PLANETIZATION OF CONSCIOUSNESS INCLUSIVE OF PHASES OF HOMINIZATION AND SUPERHOMINIZATION

"Supposing we imagine inside a solid transparent globe a wave starting from the south pole and spreading towards the north pole. Taken over its widest course it will spread equally in all directions and therefore 'converging', 'medium' and 'jet' at the same time, during the first half of its passage (as far that is, as the Equator) it is spreading outwards, beyond that point however it begins to contract upon itself. Well then if we follow the historical development of the noosphere, we may truthfully say that it seems to conform to an exactly similar rhythm"

Pierre Teilhard de Chardin, Man's Place in Nature, p 81 (1956)
